

Dear Dialysis Provider:

Effective date of service July 1, 2003, dialysis rates will be reduced by 10%.

Please use the nine digit provider number you were issued and have always used for billing Georgia Medicaid. On the UB-92, this information is located in FL 51. Please do not add any zeros to your provider number. Your provider number must be on all claims submitted. Lack of the correct provider number is causing significant problems/delays in claims processing.

For questions regarding this you may call Debbie Smiley at (404) 657-9110. Thank you for your participation and continued support in Georgia Medicaid.
